

ARROW UNIFORMS

RL System: RL FiberthermX
Project Size: 3,600m²
Location: Upper Hutt
Project Date: 2023

Architect: Harris Architects Limited
Contractor: ASPEC Construction
Installer: Empire Roofing

PROJECT DESCRIPTION

Arrow Uniforms has successfully built a new Head Office and Distribution facility in Silverstream. This step is part of a strategic decision to enhance the company's ability to effectively serve its clients.

The new building boasts a thoughtful design aimed at boosting operational efficiency and accommodating the company's expanding requirements. From its RoofLogic FiberthermX warm roof to its cutting-edge technological infrastructure, every aspect of the facility has been meticulously crafted to align with Arrow's mission of delivering exceptional service.

This relocation is an opportunity for Arrow Uniforms to reaffirm its commitment to excellence and innovation. By investing in this new space, the company is positioning itself to seamlessly adapt to the ever-changing needs of its clients and the industry.
