

# TE POU Ō MATA-AU

## CLUTHA DISTRICT MEMORIAL & COMMUNITY CENTRE

**RL System:** RL FiberthermX  
**Project Size:** 3,100m<sup>2</sup>  
**Location:** Balclutha  
**Project Date:** 2023

**Architect:** Keiran Cooper Architecture  
**Contractor:** Calder Stewart  
**Installer:** Extreme Roofing

### PROJECT DESCRIPTION

The Hub, officially named the Clutha District Memorial and Community Centre, stands as a striking structure at the entrance of Balclutha, adjacent to the scenic Clutha River. Designed to serve diverse purposes, it provides a venue for cultural events, community gatherings, business activities, and theatrical performances. Additionally, The Hub serves as the home for the i-SITE and the Clutha District Council Service Centre.

The FiberthermX roof is constructed with RL Fibertherm glasswool insulation utilising the RL Post and Rail system. This provides the Hub with a simple and effective warm roof. The exposed underside of the LinerDeck has exposed insulation to control Reverberation time within the building.

### SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's FiberthermX system:-

- RL Liner Deck (Zincalume, 0.55BMT)
- RL Vapour Control Layer
- RL Fibertherm System Insulation
- RL Structural Post and Rail
- Associated Washers, Fasteners and Adhesives
