

VITACO HEALTH FOODS

RL System: RL FiberthermX
Project Size: 5,500m²
Location: East Tamaki
Project Date: 2020

Architect: VRLA Architects
Contractor: Savory Construction
Installer: Steel Roofing Limited

PROJECT DESCRIPTION

Vitaco Health Ltd, is the largest natural health supplement and specialist food and beverage manufacturer in Australasia. They selected FiberthermX for their new facility as an effective way to naturally maintain consistent internal temperature.

“Pleased to report that, without cooling, the daily maximum and minimum summer temperatures only vary between 1 and 2 degrees as a result of the RoofLogic warm roof system” – Vitaco project Engineer.

Roof to warehouse is a gable warm roof with long run profiled metal sheet on DHS purlins, with eaves gutters. Roof to office is mono-pitch warm roof with long run profiled metal sheet and waterproof membrane box gutters.

SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's FiberthermX system:-

- RL Liner Deck
- RL Butyl Tape
- RL Elite Insulation
- RL Structural Rail and Post
- RL Topdeck T
