

# WYMA SOLUTIONS

**RL System:** RL FiberthermX  
**Project Size:** 10,000m<sup>2</sup>  
**Location:** Christchurch  
**Project Date:** 2022

**Architect:** Wilson Hill Architects  
**Contractor:** Envision Eighty20  
**Installer:** Graham Hill Roofing

## PROJECT DESCRIPTION

Wyma Solutions Ltd undertook the development of a tailor-made 10,000 square metre facility situated on a 2.2-hectare site within the Waterloo Business Park in Islington. This extensive structure comprises a 2,000 square meter office and amenity area designed to accommodate the 120 local Wyma team. Additionally, it encompasses an 8,000 square meter factory and assembly area, complete with multiple overhead gantry cranes and monorails, as well as four specialized blast and painting booths, alongside cutting-edge engineering machinery.

## SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's FiberthermX system:-  
FiberthermX System over the Warehouse:

- RL Liner Deck – standard
- RL Fibertherm System Insulation
- RL Fibertherm structural rail assembly
- RL TopDeck T
