

TE KAHU O WAIPUNA

MARLBOROUGH LIBRARY AND ART GALLERY

RL System: Ultratherm MSR
Project Size: 1,800m²
Location: Blenheim
Project Date: 2023

Architect: Warren and Mahoney
Contractor: Robinson Construction
Installer: Kevin Morgan Plumbing

PROJECT DESCRIPTION

In 2013, the Council's 'Growing Marlborough – A Strategy for the Future' identified that Marlborough's libraries in Blenheim and Picton were no longer adequate to serve the community's needs and expectations. The new gallery provides environmental and operational facilities to the highest professional standards in accordance with the national requirements for public art galleries in New Zealand, as required by Museums Aotearoa.

The Blenheim Library takes advantage of a superb site, centrally located with a northern aspect and immediate connections to the Taylor River. The project acts as a gateway for Blenheim, signalling civic identity for locals and visitors alike. The Marlborough Library and Art Gallery features a RoofLogic warm roof design, incorporating a trapezoidal metal roof profile.

SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's Ultratherm MSR system:-

- Plywood Substrate
- RL Vapour Control Layer
- RL Stonewool
- Roofing Underlay
- RL TopDeck T
