

MOORE WILSON'S

RL System: Ultratherm MSR
Project Size: 1,300m²
Location: Masterton
Project Date: 2022

Architect: Athfields Architects
Contractor: D,B Brown
Installer: Tararua Roofing

PROJECT DESCRIPTION

Moore Wilson's is an iconic Wellington wholesaler catering to the demands of the region's food service industry and private households. The business and its original Tory Street site have evolved over the years, with new locations being added. Masterton, the latest addition, necessitated a controlled temperature interior. The RL Ultratherm MSR warm roof played a crucial role in achieving this goal.
