RL System: Ultratherm Xtreme (FiberTite)
Project Size: 5,000m²
Location: Wellington
Project Date: 2021

Architect: HMOA Architects
Contractor: PCB
Installer: SWP Commercial

PROJECT DESCRIPTION

Brand new and purpose-built, the soundstages feature a warm roof system over a concrete substrate specifically designed for acoustic attenuation, a crucial requirement for recording purposes.

SPECIFIED ROOFLOGIC SYSTEM

RoofLogic's Ultratherm Xtreme (FiberTite) system:-

- RL FiberTite Membrane
- RL PIR Insulation
- RL VCL
- Concrete substrate
